## Our *GOLDEN* richness . . .

In the past 50 years Morrison R. Waite High School has graduated approximately 13,000 individuals, who now carry with them the "golden memories" of their years at Waite.

If the school could look over the United States it would see its alumni in all corners of the country, working and progressing and bringing recognition and honor to Waite, which it most certainly deserves. In this respect we feel that Waite has been rewarded for its outstanding educational program.

Because of these alumni and the present students, Waite has been given a richness that cannot be equalled. With our "pot of gold" we have tried to symbolize this "golden richness"—our theme for this "Golden Anniversary" yearbook.

Included in this book is a supplement which will help to recapture some of the "golden memories" of the past 50 years, as well as revealing some of the highlights of the five decade reunions.

## DEDICATION

Morrison R. Waite High is able to celebrate its Golden Anniversary this year (1964) because of the firm foundation laid by C. M. Nordolf and associates, and the instructional foundation laid by those teachers on the first facilities. A structure material or spiritual is as strong and enduring as its foundation. Thus, without either the firmness of the architectural foundation or the soundness of the instructional foundation, Morrison R. Waite High would have been a structure built upon the sands. A structure that would have weakened and eroded with time.

But because the firm C. M. Nordolf architects, was dedicated to the principle of sound structural planning, the building today remains a beautiful architectural edifice, admired by those in attendance, cherished by those who have graduated therefrom and esteemed by those citizens neighboring it.

Now, too, to those dedicated teachers of the Faculty of Waite High we here pay TRIBUTE. We know it was their torch of dedication, held high, that lighted dark footpaths to purposeful lives and useful citizenship. Accordingly, to their patience, kindness, unselfishness, steadfastness, understanding, and courage we, their followers, pay HONOR.

We, who follow in their footsteps are poignantly aware of our deep responsibility not to let their torch be dimmed nor fall into the dust. We realize that they too, must have felt at times, that certain waste of talent, but because of their dedication and their courage, they stayed on—knowing the need.

These, our teachers, were brilliantly aware that not all of us can do the same things, that not all of us are adapted to the same type and quality of work, and that not all of us are charged with the same duties. Without this strong influence and knowledge, Waite High would not today claim so many skilled and professional men and women, as our Alumni Roster proves.

Thus, it is with humility that we "followers" seek and strive "to carry the torch" handed to us in our olympic race for truth, by those who had the courage, and strength, and the stature of those, the "perfect men," the Faculty of Waite High, who "ran" before us.

Firm upon this foundation, lighted on our way by this gleaming torch, we, the followers, sing always in our hearts, hear ever in our ears, "Loyal, Loyal to old Waite High . . . We will ever be."

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete each task.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. The final step is to evaluate the results of the project. This involves comparing the actual outcomes with the objectives and goals to determine the effectiveness of the project and identify areas for improvement.

To Barb, a real  
sun in my life and  
a great teacher.  
Good luck in  
everything.

Just wanted to say  
how much I enjoyed  
being in your class.  
You have a great sense of humor  
and I enjoyed the past  
years.  
Thank you.

To Barb,

One of my dearest friends  
I have known you almost 6  
Years now and during those years  
we have had alot of nice times  
together. You've always been  
there when I needed a shoulder to  
lean on, and your smiling face  
and good advice have pulled me  
out of many jams. You are very  
cute and have a wonderful personality  
I hope that you will have the  
best of everything, always. I hope  
that we can always remain the  
good friends we are today. Best of  
luck in all you do and I hope  
your lucky week is granted.

Love Ya always as my best friend

 in math  
 Good luck in the  
 future. Your Cousin

To Barb,  
 A real cool and  
 swell girl, you  
 sure take the  
 ribbing, but it's  
 all in fun. Good luck
